

Spring Term – Week 25

This week, we learnt about the solar system and enjoyed designing new planets using the oil pastels. In English, we read 'How to Catch a Star' discussing the feelings of the boy throughout the story and designed our own traps. In Maths, we focused on number bonds to 10 using the giant 10-Frame, Numicon and Part-Whole Models. We loved our trip to Queenswood and exploring the Gruffalo trail too!
