

PSHE

Intent statement—

At Hampton Dene we endeavour to deliver a curriculum that will allow our children to be healthy, independent and responsible members of our society.

We provide our children with the opportunities to learn about the diversity of our society, and develop an appreciation of the world in which they live.

Our children are encouraged to develop their sense of self worth by playing a positive role in contributing to school life and the wider community.

Focus	Brave Explorer –Skill/attribute
Independence	Learn strategies to deal with changing emotions, and the self confidence to contribute effectively in class.
Imagination	Develop empathy to understand the diversity of our community and the make up of our world.
Resilience	Join in discussions, and understand that people will disagree, and there will always be people who have different opinions to you.
Teamwork	Actively join in class discussions and group work, and feel confident to air your own opinions.

Health and Well-Being	Relationships	Living in the wider world
To understand what is meant by a healthy lifestyle, and how to look after your own physical, mental and emotional well-being. To learn ways to keep yourself safe both physically and emotionally; to develop skills to help make informed choices about ones own health and well-being. To learn how to manage change around transition, loss and puberty.	Recognise what a healthy relationship is, and know how to develop and maintain one. Learn to recognise and manage emotions within a relationship. Understand what is a risky or negative relationship, and ensure we know how to react, and where to seek help if needed. Celebrate and respect equality and diversity within relationships.	Learn the importance of having respect for oneself as well as others and the need to behave responsibly. To understand the importance of protecting the world that we live in. To respect diversity and equality within our community. To appreciate where money comes from, and the importance it has on peoples lives, and how to manage it effectively.

Subject and Intent statement (no more that 100 words)

Generate, develop, model and communicate their ideas through discussion, annotated sketches, cross-sectional and exploded diagrams, prototypes, pattern pieces and computer-aided design.
